

Dear Parents and Carers,

Sports Days Next Week

Next week we are planning our Sports Days for Reception to Year 6. You should have received a letter about them today. In order to avoid the forecast heatwave, we are planning for Year 3-6 to have theirs on Wednesday, and Reception, Y1-2 on Thursday.

Please make sure your child comes to school wearing their PE kit on the right day, and a sunhat and suncream.

Mrs Hussain's last day

We are sad to tell you that today is Mrs Hussain's last day as a Learning Support Assistant at our school. We are sure you will join us in wishing her all the best in her future adventures.

Reception go to the seaside

Reception children went to Filey yesterday and had a wonderful time digging in the sand and paddling in the sea. Please talk to your child about what fun they had.

Baby news

I am sure you will be delighted to know that Miss Bartlett had a baby son called Noah on 1st July and Mrs Bhatti also had a baby boy, called Adam on 12th July.

Welcome to the world, Noah and Adam!

Parents' Guide to Minecraft

This week's guide is to Minecraft – a very popular game! Read this guide for advice for parents and carers.

Have a great weekend!

Mr Elcock (Deputy Head)

Superstars

We are now beginning to hold Celebration Collective Worship (Assemblies) on Friday mornings. We hope that in a few weeks we will, once again, be able to invite parents to join us in celebrating our pupils' achievements. We will let you know when this will happen.

Well done to all our Superstars below...

Nursery	
Morning: Mohammed	Afternoon: Yahya
Reception	
Spinners: everyone	Twisters: everyone
Year 1	
Delius: Gloria & Umer	Hockney: Imaan & Muntha
Year 2	
Forster: Harisa & Vanessa	Lister: Vanessa B & Tama Z
Year 3	
Bronte: Lera & Hany	Haworth: Vadanah & Kohen
Year 4	
McMillan: Nikola & Elijah	Priestley: Juwairiah S & Zayn
Year 5	
Salt: Zahra & Hadiyah	Jowett: Sehrish
Year 6	
Appleton: Maira & Leon	Cartwright: Roderick & Tia

What Parents & Carers Need to Know about MINECRAFT

AGE RATING

7+

Minecraft is a beloved classic of modern gaming. First released in 2011, this open-ended 'sandbox' game of building and exploration still has over 140 million players who happily return to play it at least once every month. Minecraft has also been utilised for much more than just entertainment: it's sometimes used in schools to teach children coding, and it's also employed as a tool for computer-aided design, which is another valuable skill. Encouraging creativity and problem solving, Minecraft has plenty to offer gamers of all ages, and it's available on almost all video game platforms.

WHAT ARE THE RISKS?

PUBLIC SERVERS

Joining a public network (called a server) lets your child potentially interact with strangers through text chat. Some servers focus on building, while others are dedicated to role-playing – encouraging direct player interaction. Anyone can join public servers and connecting to one is relatively simple. Public server IP addresses (and therefore someone's location) are easy to find with search engines.

GRIEFING

Some people in Minecraft delight in purposefully damaging or destroying another player's creation. This is called 'griefing' and is a form of bullying: it intentionally spoils someone else's experience in the game by deleting hours of their work and forcing them to start from scratch. Many public servers treat griefing as a severe offence and frequently ban offenders.

ADDICTIVENESS

Minecraft's gameplay is relatively simple, and the outcome (when a child has built something new, for instance) can be extremely gratifying. This can make the game highly addictive. It's easy to lose track of time while playing Minecraft, causing committed young players to forget about other activities like homework or enjoying family time.

SCARY ELEMENTS

The visual design and gameplay of Minecraft is purposefully child friendly, so there's nothing too untoward in the game. However, some of the 'baddies' that can be encountered might prove a little too scary for very young players. In the game, certain enemies come out at night and are accompanied by audio – such as zombie moans and skeleton bone rattles – that may unsettle young ones.

ADDITIONAL PURCHASES

After initially buying the game, players can make optional extra purchases for cosmetic items and other bonuses. Minecraft Realms is an optional online subscription (requiring regular payments) that lets users run a multiplayer server to play with their friends. Most games consoles also need an active subscription to enable online play – so online gaming can quickly become an expensive hobby.

Advice for Parents & Carers

RESEARCH CONTENT CREATORS

There are a lots of Minecraft content creators who release helpful videos about the game on YouTube and Twitch. Not all of these, however, are suitable for children. Watching these content creators' channels yourself first is a safe way to find appropriate Minecraft videos to share with your children. This also helps you learn more about the game itself, and how your child plays it.

CHOOSE THE RIGHT MODE

Selecting 'Creative' or 'Peaceful' mode allows children to play Minecraft without having to contend with enemies. It's also a great way for you to get used to playing the game with them, since the difficulty level is lower. This allows you to work together on a long-term project, creating something special without the threat of moaning zombies or creepers damaging your build.

HOST A PRIVATE SERVER

The easiest way to find a safe server for your child to play on is to make one yourself. Hosting a server prevents strangers from finding it, unless they've been given the necessary joining details. A private server also lets you control who's allowed to enter and – if necessary – to ban someone who shouldn't be there. This is the closest equivalent to parental controls in Minecraft.

ENCOURAGE BREAKS

It's easy for the hours to fly by while your child is playing Minecraft, so reminding them to take regular breaks is essential. This is a useful way for them to learn good time management, which they'll benefit from as they get older. It will also teach them to play their favourite games in moderation – limiting addictive behaviour and allowing them to manage their day better.

TALK ABOUT STRANGERS

At some point in their lives, almost everyone needs to have contact with a stranger online. Talking to your child about online safety, therefore, is essential – as is having a plan in place for dealing with any hostile or difficult strangers. Ensure that your child knows never to tell a stranger about themselves online, and that they should come to you straight away if they do encounter a problem.

Meet Our Expert

Clare Godwin (a.k.a. Lunawolf) has worked as an editor and journalist in the gaming industry since 2015, providing websites with event coverage, reviews and gaming guides. She is the owner of Lunawolf Gaming and is currently working on various gaming-related projects including game development and writing non-fiction books.
